FUMIGATION CERTIFICATE

Date: 01/24/2023

Location: Bunge North America, Destrehan, Louisiana

To whom it may concern,

The M/V THOR INDEPENDENCE

This fumigation certificate will confirm that the cargo was fumigated with Weevil-Cide (60) % Aluminum Phosphide), phosphine gas, at a dosage rate of 33 grams per 1,000 cubic feet of cargo space using the "Recirculation method of fumigation".

Cargo hold # 1 loaded with SRWW.

Cargo hold # 2 loaded with SBM.

Cargo hold # 3 loaded with SBM.

Cargo hold # 4 loaded with SBM.

Cargo hold # 5 loaded with SBM.

The vessel's destination is Venezuela, and the cargo will be under fumigation for a minimum exposure period of 4 days. **It is recommended that the fumigated holds remain closed during entire voyage even if the mandatory minimum exposure time is met or exceeded.**

The commodity temperature was above 69 degrees Fahrenheit.
